

High Altitude Invitational | January 16-17, 2026

High Altitude Skating Club

Laramie Ice & Events Center, Laramie WY

I. COMPETITION OVERVIEW

The High Altitude Invitational will be conducted in accordance with the rules and regulations of U.S. Figure Skating, as set forth in the [current rulebook](#), and/or [current Compete USA handbook](#) as well as any pertinent updates that have been posted on the U.S. Figure Skating [website](#).

This competition is open to all eligible, restricted, reinstated or readmitted persons as defined by the Eligibility Rules.

Skaters must be a currently registered member of a U.S. Figure Skating member club, Learn to Skate USA® member, a collegiate club or who is an individual member in accordance with the current rulebook. For non-U.S. citizens, please refer to the [rulebook](#) for more information.

II. ELIGIBILITY

Singles: Excel and Well-Balanced Events:

- Skaters must meet at least the minimum singles test requirements for the event's level. A skater's singles test level may be higher than the minimum requirement.
 - Skate Up : skaters may skate up one level higher than their minimum test requirement allows.
- Skaters may not register for an event level lower than allowed by their competitive floor. An athlete's competitive floor is set by one of the following scenarios:
 - If an athlete has a paid EMS series application for the NQS series, the event level registered for in the most recent NQS will become the lowest level they may compete at in any U.S. Figure Skating sanctioned event.
 - If an athlete has a paid EMS series application for the Excel Series, the event level registered for in the most recent Excel series will become the lowest level they may compete in any Excel event. For Well-Balanced and Specialty events the skater will be permitted to register at one level lower than the "floor" set by their excel series entry.
 - If an athlete has never had a paid EMS series application in the NQS or Excel series, the athlete may select their level based on their goals and technical skills as long as the minimum test requirements are met.

- Skaters are not permitted to enter an Excel free skate and a Well-Balanced free skate event at the same competition (example: Juvenile Girls Free Skate and Juvenile Girls Excel Free Skate). However, they are permitted to enter an Excel and a Well-Balanced event of different types such as a short program (if stand-alone event option), specialty or showcase events (example: Intermediate Women Short Program and Intermediate Women Excel Free Skate).
- For more details about establishing event levels, refer to the information sheet [HERE](#) or email events@usfigureskating.org.

All other singles and partner events (such as Adults, Pairs, Ice Dance):

- Skaters must meet the minimum test requirements for the events level, but not exceed the maximum permissible test requirement.

Synchronized Skating:

For synchronized skating teams, this competition is not requiring that skating skills test requirements for the team's level be met, except for the maximum allowed at the Compete USA levels (Snowplow Sam Synchro and Aspire levels).

High School Team Competition:

Skaters must be enrolled as a full-time student as defined by the institution that they attend, grades 9-12, as per state guidelines. This includes both traditional and homeschooled students. A minimum of two (2) skaters are required to form a team. Team members may include skaters of any gender. Skaters do not have to be at the same test level. Athletes may compete either for the high school they are attending or as a high school collaborative, defined as follows:

- Athletes from a single school, representing that school OR
- Athletes representing two or more area high schools combine to form a team.

NOTE: Competitors may not represent more than ONE high school skating team at one time.

High School Skating Team Membership

All High School Skating Teams participating in high school competitions **must register** with U.S. Figure Skating on the Members Only website. This will include creating a team roster to include all skaters on your team and paying the annual team dues of **\$50**, which are due annually and payable by or after September 1st.

All teams have a **minimum of 2 skaters and a maximum of 6 skaters. Teams must have at least one Team Manager who is 18 years or older, must have a current U.S. Figure Skating membership, and be fully compliant.** Team coaches are not required to form a team. However, if a team chooses to have a team coach, this person may also serve as the team manager. For detailed instructions on how to create your team, please refer to the [Steps to Register/Renew Your High School Team](#). If your team has already been identified with U.S. Figure Skating, do not create another team account. Member Services can give access if leadership has changed for the new season, and you can then renew and manage your team for the new season.

Team Maneuvers Competition

Each level will include all 12 elements, with no one skater performing more than 6 elements. All athletes will have a general warm-up of stroking-only for 1 minute. There will then be a warm up specific to each skill section - Jumps, Spins and Skating Skills. All skills may be warmed up by assigned skaters during each of those times. Any skaters not assigned an element in that section may remain at their teams assigned location along the boards. Depending on entry numbers, teams of different levels may be on the ice at the same time being judged by separate judge panels.

Longest Spiral Competition

Skaters within each level begin one at a time in random order, starting with no more than three introductory strokes, and the spiral position must be attained at the blue line nearest the far end of the rink and goes as far as possible towards the lobby end. There will be cones placed on the blue line at the lobby end, and if the skater can maintain a spiral beyond the lobby end wall, s/he must curve around the cones. Once stopped or lost spiral position (free leg lower than hip), the skater stands on that spot and waits for the next skater. If the next skater goes beyond the distance of the first skater, s/he becomes the next leader until all competitors have completed their spirals.

Longest Spin Competition

All skaters of each level begin spinning together when the start is announced (no more than 5 seconds for preliminary steps). The last skater spinning after the start wins. Only one change of foot is permitted. Positions are optional.
